

Canada Makes once again to lead trade mission to Formnext in Frankfurt Germany – November 2022!

Canada Makes is once again looking for delegates interested in joining a trade mission to the **Formnext** tradeshow in **Frankfurt Germany, November 14 to 18th 2022**.

Formnext is the leading AM tradeshow for the next generation of intelligent manufacturing solutions. It focuses on the efficient realization of parts and products, from their design to serial production. See cutting-edge technologies your company can leverage to gain a competitive edge and the latest expertise that can help in reducing your time-to-market.

For more about **Formnext** – see <https://formnext.mesago.com/frankfurt/en.html>

Canada Makes Trade missions are about opening doors, gaining insights, business-to business contacts, information and tools for Canadian businesses, especially small and medium-sized enterprises (SMEs).

The Five-day fact-finding mission will focus on additive manufacturing (AM) and offer the opportunity to meet with leading additive manufacturing companies and experts.

Join Canada Makes as a delegate and take full advantage of the benefits.

Space is limited and are available on a first come-first serve basis.

Interested parties, or for more information contact.

Steve Kleimaker – Director of Community Relations

Canada Makes will work with Formnext event organizers to set the following.

- Set the agenda with various group activities
- Cover Admission to the Tradeshow
- Offer logistical support
- Arrange networking meetings with leading AM companies
- Arrange market briefing from Canada's German trade commissioner

In addition to your own travel and accommodation costs,

Canada Makes will charge an administration fee of \$500 for Canada Makes Members, or \$750 for Non-Members to participate in this trade mission.

Previously, Canada Makes organized a very successful trade mission to **Formnext** and the knowledge and connections gained are proving invaluable to participants.

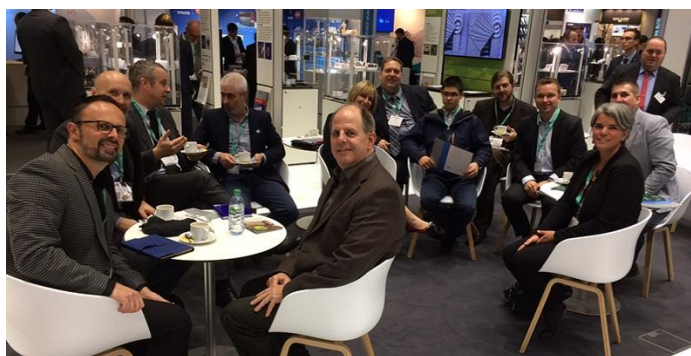

FRAUNHOFER'S DR. BERNHARD MUELLER SHOWING A LATTICE STRUCTURE PART PRINTED ON AN EOS M400.

The Canada Makes delegation visited Fraunhofer booth and were introduced to some very interesting information, like the lattice structure Fraunhofer produced on their EOS W400.

The delegation will continue to arrange meetings with leading AM companies and meet with global leaders in additive manufacturing.

The opportunities **Formnext** offers was already obvious to the delegates after the first day, making this trade mission an excellent investment in time and money.
